2018 COLLECTION

Our mission is to create beautiful, intelligently-designed products that enable the world's finest hotels and restaurants to deliver exceptional customer experiences.

We are innovative thinkers with a rich history in design and craftsmanship.

We listen to our clients, working closely with them to develop products that resolve the requirements of the contemporary professional hospitality environment, ensuring we are always honest to the materials used.

“We provide chefs and hoteliers with the tools they need to choreograph their customer experience”

— Alex Craster

FLOW

FLOW

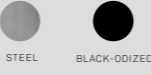

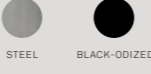

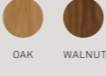

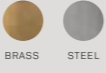

Flow is a versatile modular buffet display system, based around a gastronorm footprint offering solutions for ambient, hot and cold set ups. Flow consists of stacking trays, available in oak, walnut, white-washed and black timbers, plinth tops available in white or grey marble or glass and stainless steel or blackodized steel risers.

Flow's interchangeable and stackable components offer versatility to tailor your display and allows for efficient replenishment of display between front and back of house.

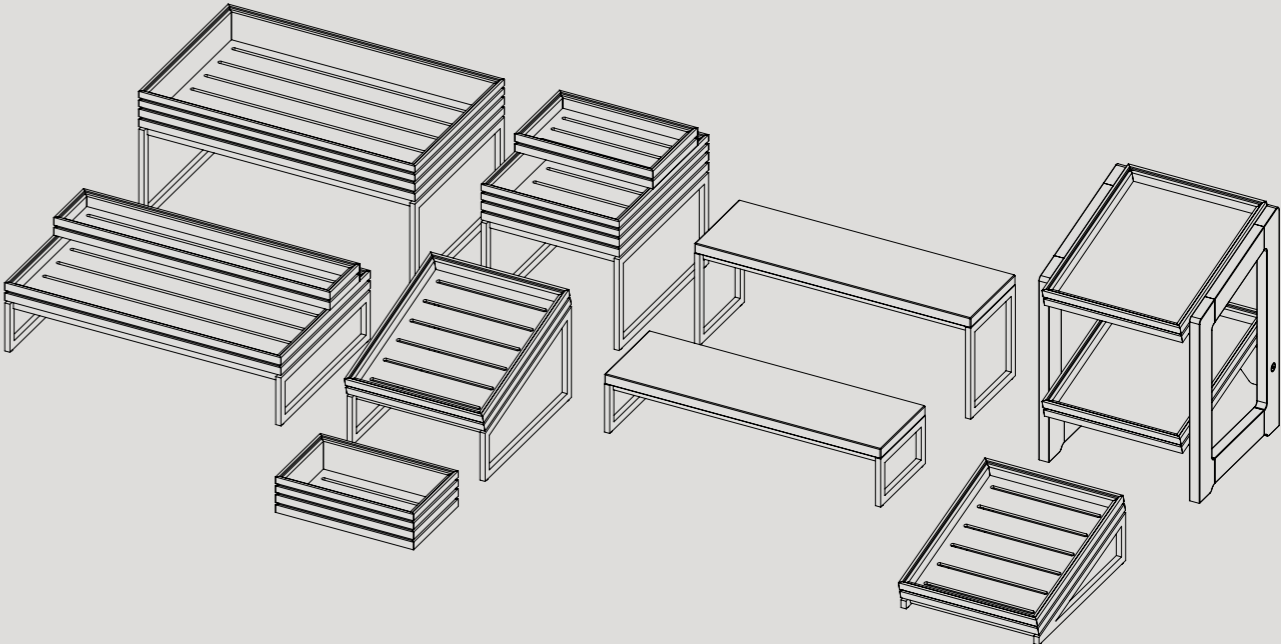

HOW TO CREATE YOUR BUFFET WITH FLOW

Flow range is based around a gastronorm footprint and allows you to simply build a custom display buffet. To build a display, please select a gastronorm size, a frame (flat or angled), and a top (deep or shallow trays, tray inserts or flat plinths).

Craster also offers accessories to make displays even more unique including heating or cooling unit, to keep the food at the right temperature, as well as label holders or lid liners. Our Flow range come in four different colours including walnut, oak, black and white washed.

Gastornorm sizes					Material
1.1 530 x 325 mm 20.8 x 12.7"	1.2 325 x 265 mm 12.7 x 10.4"	1.4 265 x 162.5 mm 10.4 x 6.3"	2.4 530 x 162.5 mm 20.8 x 6.3"	3.9 530 x 108 mm 20.8 x 4.2"

HEATING UNIT

Designed to accompany the Flow buffet display range, our Heating Units are ideal for keeping food hot whilst on display, offering an easily adjustable variable temperature control up to 120°C (248°F) utilising ceramic heating element technology.

With a solid lacquered oak or walnut base, and slate-like composite surface, the Flow Heating Unit offers a unique aesthetic solution to keeping food warm.

LID LINERS, LABELS & HOLDERS

NEW

Add additional functionality to your display with Lids, Liners and Labeling. Flow Lid Liners can be used as a lid or a liner within a 1.2 or 1.1 deep Flow Tray, enabling you to use them as a liner for fresh ice display with yogurt or juice, or to cover food back of house.

Flow Label holders slot easily on to the edge of a Flow tray, or can be used as stand-alone products.

TILT

Tilt is a flexible buffet system comprised of cylindrical metal risers compatible with a range of serving top solutions for both wet and dry foods. Select from bowls made of solid walnut, spun brushed brass and black glass or plinths made from luxurious marble or solid walnut.

The Tilt risers feature a precision fitted rubber gasket, which gently grips the bowls surface, allowing these to be used at various angles depending on the display requirements of your events.

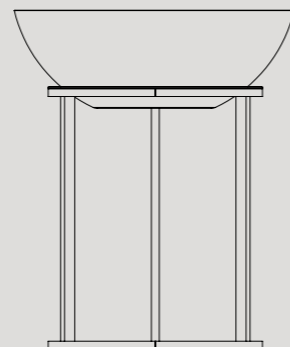

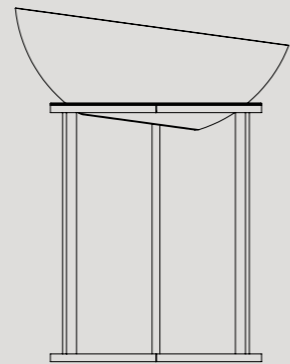

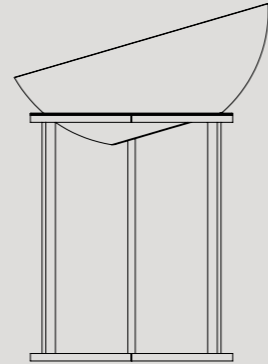

TILT RANGE

Our new Tilt range consists of frames that are all the same footprint, allowing you to easily mix up a buffet display depending on your own requirements.

To build a custom display, select a riser size, then pick from bowls made of solid walnut, spun brushed brass and black glass or plinths made from luxurious marble or solid walnut.

Size	Material
SMALL BOWL	 WALNUT  BRASS  BLACK GLASS

BOWLS

OLIVE WOOD BOWLS

Our olive wood bowls have a special and very vivid grain structure which makes each piece different. Please note that the bowls are shaped from a unique piece of wood and despite our meticulous drying process, cracks can occasionally appear in the wood due to the specific nature of these natural products.

MINERAL OIL

Our pure mineral oil provides protection, retaining the wood's natural colour and character, and prolonging the life of your board. We recommend applying the oil with a folded kitchen paper towel so no need for brushes.

The oil is clear, tasteless, odourless and food safe. It is ideal for use on wooden items including bowls and utensils. It can also be used on slate or stone.

Pure Mineral Oil Bottle, 500ml

CONFERENCE & EVENTS

LINE TABLE

Line is our new linenless conference table range, which offers a contemporary aesthetic that fits discreetly in any environment.

The range is a versatile table system focusing on an efficient set up and break-down offering great functionality, ergonomics and flexibility to address some of the key challenges of operating in the demanding conference and events sector.

LINE TABLE

LINE TABLE

Intuitive Set-Up

Intuitive locking system, ergonomic grip for seamless set-up, breakdown and changeover. No tools required.

Stable and Durable

Featuring a rigid frame reinforced with bracing table-top element and a near-indestructible Reef edge.

Compact Storage

Legs fold into 43 mm width, with table tops slotting underneath on the trolley for class-leading storage density back of house.

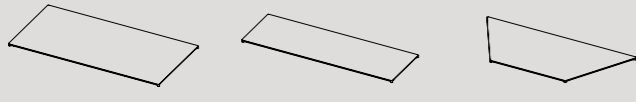

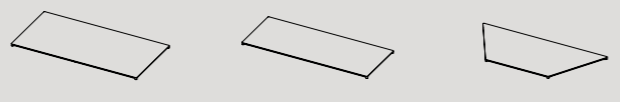

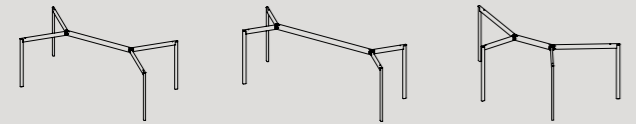

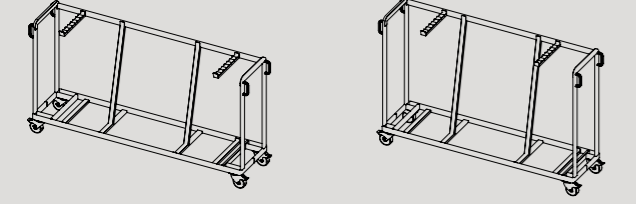

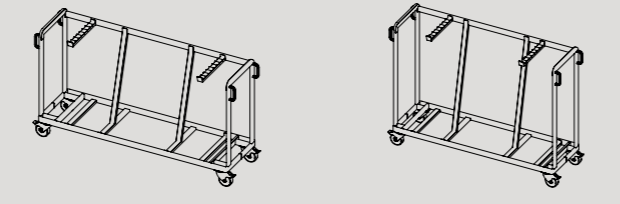

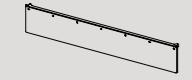

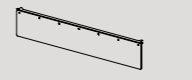

LINE RANGE

The Line table range is available in two sizes – 1800 mm and 1500 mm – and in three different shapes – rectangular, classroom and trapezoid – to create various configurations that can be built to suit any specific needs.

The Line range consisted in five different elements including table tops, legs, modesty panels (optional), cable management (optional) and trolleys (mandatory).

RISE TABLE

Our Rise Table range has been beautifully manufactured and intelligently engineered to support a responsive buffet service.

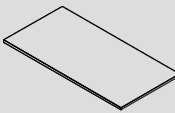

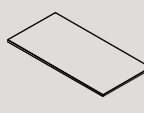

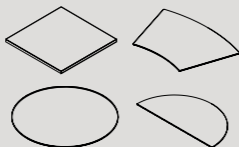

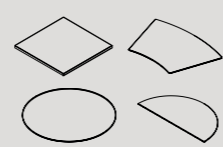

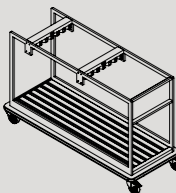

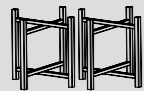

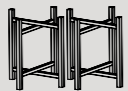

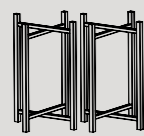

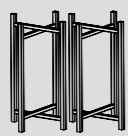

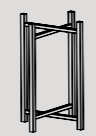

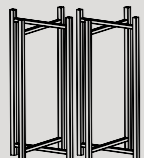

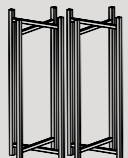

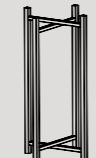

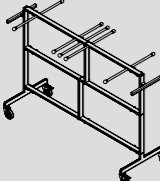

The range features a universal locator system allowing our folding legs and table tops to be used in any combination. Legs are available in solid oak, stainless or black steel and can be used with tops in glass, HPL with Reef edge or timber veneer.

RISE TABLE

A universal locating system, our buffet tables allow you to mix and match any top or legs to create the perfect solution for your buffet.

Select a size series (800 or 700), then select a shape and material for the top and finish by selecting a leg height (short, medium, tall) and a finish (wenge, brushed stainless or black). Please note that trolleys are mandatory and varied depending on the number of tables ordered as well as the material.
