designed by Gianpietro Gai & Giuseppe Zema

THE ZEPÉtouch™ TECHNOLOGY: Special warm and soft touch - matt finished surface. / **Hydrophobic high-tech surface** treatment with selfcleaning effect - modelled on nature: Dirt can be easily removed by water. / **Good fire-and high temperature resistance** for wooden trolleys. / **Excellent resistance to abrasion and scratches** for a wooden trolley. For example the bottom of porcelain bowls and dishes could be unglazed and therefore sharp, and can cause scratches on the surface of wooden trays and trolleys. / **ZEPÉtouch™ protects your investment** through longer lifetime of the trolley. / This finish is non toxic and complies to the European REACH regulation.

TACTUS PREMIUM SERVICE TROLLEY LINE

designed by Giuseppe Zema

THE ZEPÉtouch™ TECHNOLOGY: Special warm and soft touch - matt finished surface. / **Hydrophobic high-tech surface** treatment with selfcleaning effect - modelled on nature: Dirt can be easily removed by water. / **Good fire-and high temperature resistance** for wooden trolleys. / **Excellent resistance to abrasion and scratches** for a wooden trolley. For example the bottom of porcelain bowls and dishes could be unglazed and therefore sharp, and can cause scratches on the surface of wooden trays and trolleys. / ZEPÉtouch™ **protects your investment** through longer lifetime of the trolley. / This finish is non toxic and complies to the European REACH regulation.
